

# Polypropylene Rotary Pump

**PRO MASTER®**

A	B	C
165 mm (0.5')	360 mm (1.2')	210 mm (0.7')

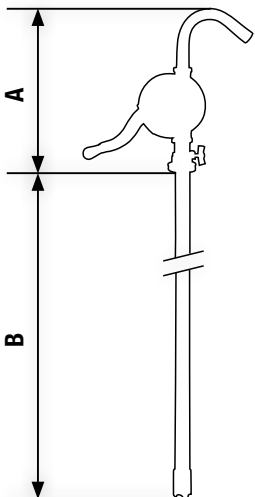

## DESCRIPTION

Self-priming polypropylene rotary pump suitable for transferring or dispensing many different low viscosity fluids ranging from AdBlue® / DEF to oil and detergents, antifreeze, windshield wash..

It features a D-shape shaft that eases handle rotation as well as a three piece suction tube and 2" BSP male bung adaptor that will help in its use with different container sizes.

Includes filter, outlet spout, plastic delivery hose, and Teflon® tape to secure every connection.
