

110 l Equipped Trolleys For Diesel AdBlue® / DEF Dispensing

FLO MASTER®
AdBlue® Urea

▶ 309 201

▶ 309 011

DESCRIPTION

110 l trolleys equipped with robust rotary pumps and 3 m hose with manual nozzle to ease refilling tasks. Their PE rotomolded manufacturing make them very sturdy. At the same time, their engineered design plus large handle and big anti-puncture wheels, provide improved manoeuvrability. Include several antispill/leakage features as its safety filling cap and cut-off ball valve or its strap fixation designed body.

AVAILABLE PRODUCTS
