

612150 / 612151

SAMOA Electric Vehicle Charging Cable Reel - 3.7kW

Revolutionary cable reel for recharging electric vehicles.

It is the first and only one with incorporated Wallbox, therefore easing and lowering installation costs.

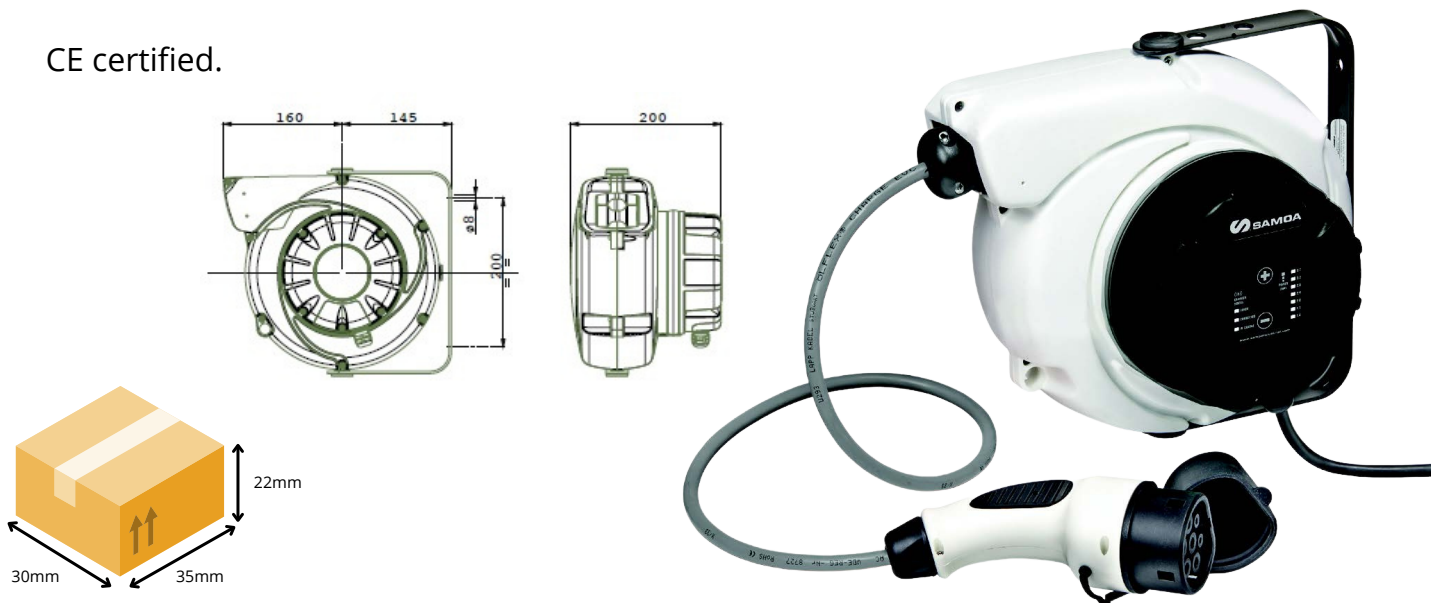

With this practical indoor cable reel you can create your own personal charging station directly in your garage.

Ability to select between different loading amperages up to 16A (3.7 kW).

Includes a loading status LED indicator:

In charge / Car connected / Error, to provide precise information about its current performance.

CE certified.

TECHNICAL DATA

Part Number:	612150	612151
Max. Load Amperage:	16 A Single Phase	16 A Single Phase
IP Protection Degree:	IP44	IP44
Connector Type:	Type 1: SAE J1772-2009	Type 2: VDE-AR-E 2623-2-2
Power:	Max. 3.7 kW	Max. 3.7 kW
Cable Type:	3G2.5 + 1x0.5	3G2.5 + 1x0.5
Cable Length (m):	3 + 1	3 + 1
Weight:	3.8 kg	3.8 kg
