

AFU4 Antifreeze/Screenwash Mixing Unit

Air operated mixing pump kit ideal for mixing antifreeze (glycol) and wind screen fluids, from small to large workshops with a fixed mix. The wall mounted unit has a suction attachment for connection to the concentrate container. The complete unit is ready to connect directly to the air supply and distribution

Part Number:	AFU4
Pump Ratio:	1:1
Mixing Ratio:	50/50
Max Air Pressure:	8 bar (150 psi)
Min Air Pressure:	3 bar (45 psi)
Max Capacity (l/min):	15 litres (4 gpm)
Air Inlet:	1/4" BSP (F)
Water Inlet:	3/4" BSP (F)
Suction Inlet:	1/2" BSP (F)
Pump Outlet:	3/4" BSP (F)
Water Tank Capacity:	4 litres
